## SUMMARY

Information Systems Undergraduate at Brawijaya University with extensive experience building RESTful APIs using Golang and various databases. Possesses a deep understanding of the software development lifecycle through roles in system analysis and Agile project management. Proven ability to maintain code reliability through standardized testing, as shared during my tenure as a Backend Testing workshop speaker. Eager to apply my technical proficiency and attention to detail in a Quality Assurance or Backend Engineering internship role

---

## PROJECT EXPERIENCE

**MAJADIGI MOBILE - Quality Assurance**  
DISKOMINFO JATIM

July 2026 - Present

- 

**Invoice Information System - Fullstack Developer, Quality Assurance**  
Koperasi Pegawai TELKOM Malang

May 2026 - June 2026

- 

**UAKI WEB - Backend Developer**  
UAKI Developer Team

July 2025 - August 2026

- Developed a production-ready backend using Go (Buffalo), PostgreSQL, and Minio Object Storage.
- Implemented JWT authentication and maintained comprehensive API documentation using Postman.
- Successfully deployed the application to a live environment for public access.

**SIMADE - System Analysis Designer**  
MMD FILKOM UB

July 2025

- Conducted user requirement analysis and authored the System Requirement Specification (SRS) as the project blueprint.
- Designed UI prototypes and system flows using Figma to define visual and logical structures.
- Applied Agile methodology to prioritize features and manage documentation iterations.

**SOFTWARE HOUSE - Backend Developer**  
BCC DEVSKILL PROJECT

September 2024 - December 2024

- Developed RESTful APIs using Go (Fiber), PostgreSQL, and Minio Object Storage.
- Implemented JWT authentication and an event-driven architecture to enhance system structure.

**CALMATE - Backend Developer**  
COLLABORATIVE PROJECT

August 2024 - November 2024

- Built Go-based RESTful APIs using Domain-Driven Design (DDD) principles and MySQL.
- Secured access with JWT authentication and integrated Supabase for scalable cloud storage.

**FITMEAL - Backend Developer**  
BCC INTERNSHIP

February 2024 - March 2024

- Developed RESTful APIs using Go (GORM & Clean Architecture), MySQL, and JWT authentication.
- Integrated Midtrans Payment Gateway and Supabase Cloud Storage for user data management.

**BUMI LESTARI - UI/UX Designer**

September 2023 - November 2023

## 4C NATIONAL COMPETITION

- Conducted quantitative user research to identify core problems and user preferences.
- Applied Design Thinking methodology and used Figma for prototyping and testing.

---

## ORGANIZATIONAL EXPERIENCE

### Head of Creative Economy Department

January 2025 - December 2025

Unit Aktivitas Kerohanian Islam Universitas Brawijaya

- Led and managed a team of 24 by optimizing Google Workspace and WhatsApp to implement a systematic and real-time project tracking and coordination system.

### Member of Backend Department

April 2024 - Present

Basic Computing Community

- Selected as a speaker for an internal Backend Testing workshop for BCC members; shared best practices on Testing with Golang to ensure code reliability and standardize testing procedures across internal projects.

### Member of Creative Economy Department

February 2024 - December 2024

Unit Aktivitas Kerohanian Islam Universitas Brawijaya

### Member of PTQ Department

October 2023 - June 2024

Masjid Raden Patah

### Treasurer of the Student Council

September 2021 - September 2022

SMA Integral Ar-Rohmah

---

## EDUCATION

### Information Systems Students (Current IPK 3.75)

2023 - Present

Brawijaya University

### Mathematics and Natural Sciences Students

2020 - 2023

SMA Integral Ar-Rohmah

---

## SKILLS

**Programming:** Golang, Java, PHP, SQL, HTML, CSS, Javascript.

**Databases:** MySQL, PostgreSQL, Supabase.

**Frameworks & Backend Tools:** Gin, Fiber, Buffalo, Laravel, GORM, JWT, Minio Object Storage.

**Quality Assurance & Testing:** API Testing (Postman), Unit Testing, Integration Testing, Backend Testing Procedures.

**Methodologies & Analysis:** Agile, Waterfall, Design Thinking, SRS Documentation (System Requirement Specification), Clean Architecture, Domain-Driven Design (DDD).

**Design & Managerial Tools:** Figma, Canva, Notion, Trello.

**Languages:** Indonesia (Native), English (Basic), Arabic (Basic).
